https://fyp-project-mu.vercel.app/

## SUMMARY

Detail-oriented and motivated Software Engineer with a solid foundation in HTML, CSS, JavaScript, Bootstrap, and React.js. I have 1 year of project-building experience during university and am currently honing my skills as a Front-End Intern at EZITECH Institute. I seek to contribute to a dynamic team where I can continue to develop my problem-solving abilities and grow as an efficient web developer. In addition to my dedication to software engineering, I am an avid squash player with nearly a year of experience. My commitment to the sport has led me to achieve a district-level medal and represent the Kohat team at the KP Inter-Division Championship. The discipline, strategic thinking, and resilience I've developed through competitive squash have greatly influenced my approach to challenges in software engineering.

## SKILLS
